## Saving tiny Hearts Funds LifeSaving Research

Since 2006, Saving tiny Hearts Society (StHS) has been working to fulfill its mission of raising seed money for grossly under-funded, lifesaving grass roots research of congenital heart defects (CHD's). These grants act as a bridge to millions of dollars of extramural funding from the National Institute of Health or other outside sources. To date the StHS has raised and granted nearly \$2 million dollars and funded twenty-four (24) research projects.

StHS is one of the United States' most efficient non-profit organizations, maintaining an operating overhead of under 5% of our total revenue. Our main objective is determining how to prolong, improve and save the lives of children born with Congenital Heart Defects.

*Thank you*

*...with all of our hearts for giving  
so freely of yours - StHS*
